

CHAPTER 62

TECHNOLOGY
MANUFACTURING PROCESSES

Doctoral Theses

656. SRIVASTAVA (Manu)
Some Studies on Optimization of Layout Plan in Generative Manufacturing Processes for Functional Components.
Supervisors : Prof. Sachin Maheshwari and Prof. T.K. Kundra
Th 22469

Contents

1. Introduction 2. Literature review 3. Generative Manufacturing techniques 4. Design of experiments 5. Experimentation 6. Experimental investigations 7. Single objective optimization using response surface methodology 8. Multi-objective optimization by grey relational technique 9. Functionally graded materials: Fabrication and analysis 10. Results and discussion 11. Conclusions 12. Scope of future research. publications. Bibliography, annexure.
